

# Practitioner's Guide to Cellular Therapies

*How to integrate Activated Oxygen and Hydrogen  
for enhanced results, revenue, and client vitality*

Smarter Practice Growth for  
Natural Health Professionals

[www.ActivatedOxygenTherapy.com](http://www.ActivatedOxygenTherapy.com)

# Welcome to the Cellular Health Revolution

*What if you could increase income,  
improve client results, and protect your own energy,  
all at the same time?*

Clients today are more tired, stressed, and inflamed than ever before.

They want results that last, solutions that go deeper than surface-level wellness.

**That's where cellular therapies come in!**

They help restore energy, balance, and radiance at the root; within every cell.

*Our mission is to support forward-thinking UK practitioners like yourself, in bringing these advanced, evidence-based therapies into practice - safely, effectively, and profitably.*

Together, we are redefining what true vitality looks and feels like ❤️

# Why Practitioners are adding Cellular Therapies to clinics:

Your clients don't just want to look well - they want to feel it.

*Inhaling Activated Oxygen Therapy and drinking Hydrogen-enriched Water or inhaling Molecular Hydrogen, helps bridge that gap.*

Powerful  
Antioxidant &  
Anti-inflammatory

Harmonises  
the Autonomic  
Nervous System

Enhances Cell  
Repair &  
Regeneration

Boosts Energy at a  
cellular level

## **Integrating Cellular Therapies into Your Practice...**

Enhance your practice by integrating Activated Oxygen Therapy sessions and Hydrogen Water into your existing treatments (just some examples below...) Elevate your client experience with tailored treatment packages, or design your own unique Signature Method that sets you apart, offering a truly holistic approach to well-being.

### **Cosmetic Acupuncture Enhancement...**

Activated Oxygen Therapy enhances Cosmetic Acupuncture by improving cellular oxygen utilisation, boosting ATP production, and supporting tissue repair. Hydrogen enhances antioxidant status and cellular repair. This amplifies the effects of Acupuncture, increasing collagen production and microcirculation, resulting in more radiant, youthful skin with longer-lasting results.

### **Aesthetics & Beauty Enhancement...**

Activated Oxygen Therapy enhances Aesthetics and Beauty Treatments by increasing oxygen utilisation. It promotes better circulation and tissue oxygenation, essential for collagen production and skin renewal. Hydrogen helps to detoxify the skin, reduce inflammation, and accelerate healing, making these therapies ideal complements to facials, anti-aging treatments, and holistic skincare protocols.

### **Massage Therapy Enhancement...**

Enhanced Oxygen utilisation at the cellular level, supporting tissue repair, reducing inflammation, accelerating recovery. Hydrogen aids muscle recovery and reduces post-treatment fatigue, helping clients feel lighter and more energised. Its anti-inflammatory and balancing effects support relaxation from the inside out, enhancing every restorative touch. These effects amplify the overall therapeutic benefits of Massage for your clients.

## Client Feedback on The Benefits of Cellular Therapies...

My observations indicate that patients tend to respond more quickly to therapy when Activated Oxygen Therapy is included in their care and it also appears to be helpful in stimulating and reinforcing improvement in those that were at a plateau in their progress.

Dr Ade Sanni, Spine and Nerve Clinic

I can't believe that such a short time can make such a difference! Many of my food allergies seem to be improving, also sugar cravings. My energy levels began to improve within a few days. I don't run out of energy and need to sleep all the time any more. I am walking better and feeling brighter in myself. Friends have noticed I look brighter.

W.C. Gloucestershire, England

After several months, my skin was much improved and I had stopped itching and completed the hypnotherapy learning sessions. There was also a sense of increased energy, which lifted my spirit and spurred on my creativity. Most importantly my mental "shrinking" has been reversed

A.B. Sussex, England

"Within a few weeks, the improvement in my COPD was miraculous! I have been able to sleep through the night without coughing and I have benefitted greatly from the machine. It has also been helpful in lowering my high blood pressure – at a visit to the doctor last week, the nurse said my blood pressure was 'fine' and usually they say it is high and have to take it a few times to get a lower reading eventually..."

E.H. Barry, Wales

"We find the machine easy to use, it's convenient and treatments can easily be organized. Specifically, our patients are reporting that after regular use they are experiencing less fatigue and are able to 'do more' in the day. We also find that if we use our machine in combination with our other treatments, patients report improvements in several of their symptoms."

# The Vital Air 5 Plus The Practitioners' AOT Choice

The Vital Air 5 Plus is believed to be the most powerful, most versatile Activated Oxygen Therapy device available worldwide.

- ✓ 5 'Dual' Activation Catalysts
- ✓ 5 Intensity Settings
- ✓ Full Spectrum Colour Therapy as standard
- ✓ Optional Aromatherapy Attachment
- ✓ Intuitive User Interface & LED Display

**Compared to other models, the Vital Air 5 Plus is superior:**

- ◆ Greater Therapeutic Power than any other model
- ◆ Versatility for your most sensitive and least sensitive clients
- ◆ Long-term Affordability; service required after 4000 usage hours (rather than 2000), Air filters replaced after 75 hours (rather than 50)
